Introductory Note

This bibliography has been organized into major chronological segments as follows:

Section 1.0	Before 1950
2.0	1950-1959
3.0	1960-1964
4.0	1965-1969
5.0	1970
6.0	1971

This document represents a compilation of the bibliographical references of all documents which had been collected by SWREC prior to March 1, 1972 on the topic of year-round school or ESY. Currently, we are attempting to collect as many of these references as possible for our library.

In the process of collecting the actual documents we have discovered a number of mistakes in the bibliographies which were used to build this one -- mistakes which have been incorporated into this document. These mistakes include misspellings of names, incorrect dates and wrong journal titles. Presently projected is a revision of this document eliminating many of those mistakes to appear late in 1972.

Documents which SWREC had in its reference library at the time the bibliography was typed are indicated by asterisks following the reference. A single asterisk indicates that SWREC has the document in hard copy form and a double asterisk that it is in microfiche form only.

An Annotated Bibliography organized by topic has been prepared to accompany this Bibliography and provide some initial guidance to the prospective student of the literature in this area.
